

### **His peace is eliminating all fear**

The place where He wants to take you is a place without fear. And in these days many people fear a lot of things. And when He invites you to fellowship with Him then one of the main things that He wants to do, to deliver you from fear. Because when you fellowship with Him, you fellowship with His love. And perfect love casts out all fear. So there is never a place or there is never a time, where He wants you to have any fear. Fear is never His domain. His domain is love and faith. So no matter what happens, it's never legal for you to operate in fear. Sometimes you think it is ok, because of so many bad things are happening. But for every bad circumstance and every difficult situation, there is another level of His peace. And His peace is always eliminating all fear.

So tonight we are declaring freedom from fear, because as long as you operate in fear, you cannot hear His voice. And you cannot move forward. So again it is not legal for you to operate in fear. And just know that with every situation in Him there is always more peace and more freedom. So the enemy in your life has the goal to destroy you, but just like with King David - I mean he was not King yet, but the enemy gave him his promotion - despite of what everybody else did in Israel, he decided to overcome his enemy. And it made him great. So your situation could make you great and help you to grow, but only if you overcome fear. See David already knew that the Lord is his shepherd and therefore he rested. And therefore he was able to go out against Goliath. So the enemy's tactics is very clear. He always operates in fear. So do not allow fear to enter into your heart. But see that the invitation that the Lord has is for more peace and freedom. So therefore give yourself to it.

In these days, where fear is rampant it is so important that you inline your priorities. Because the enemy goes around like a roaring lion. And he is seeking whom he can destroy. He cannot destroy just because he wants to, he has to seek for it. But God is seeking also, but God is seeking those that have given themselves to him. So these days, these days are days of great victory for those that do not fear, for those who spend the amount of time necessary, necessary to spend with the presence of the Lord. And it could be you, if you decide so.

The just is supposed to live by faith, not by fear. And because faith is your lifestyle, because trusting the Lord is your lifestyle, you have everything you need to overcome. You are called to overcome through your faith in Jesus Christ. It is part of your new nature to be an overcomer. So it is time for you to arise and be the person that you really are. Free from fear and walking by faith, walking by faith, walking by faith – every step. Hallelujah.

You walk by faith, that also means that you are not moved by what you see. You cannot allow yourself to be moved by what you see. You cannot allow yourself to be moved by what you hear. You have to be moved by what the spirit is saying and what you hear God telling you. Because that's the truth you are supposed to live by. And that truth will set you free. Hallelujah.

So you heard before that many things are changing, actually everything is changing. And that requires trust from you. That you are able to trust the Lord your God in these amazing times. Because things gonne go better for those that know the Lord and know how to trust Him. So again don't be confused, but be secured by what God is saying. Hallelujah.
