

Speed

- translated into English -

I have a picture, and it shows rail tracks. You can be transported two ways. Either you're walking along the rail tracks. You can see that in old movies, someone is walking along the rail tracks with his backpack to find the way to a certain city. You will find the way when you're walking along the rail tracks.

Or you could go by express train. And the Lord wants you to go by express train. You should increase in speed. Your growth should be visible. You should be fast, go fast. And you shouldn't try to find the right way with your backpack by your own strength, but He wants to transport you supernaturally.
