

The dawning of a new day

For you are witnessing the dawning of a new day. You are witnessing the dawning of a new day within the body of Christ. And that means you too. Because you are not just watching from a distance, but you are part of it. You are such an important part of it. So realize, that whatever I am doing in you right now, is of utmost importance. Because none of the workings of my spirit is in vain or unnecessary. Everything is necessary, everything from the spirit of god is necessary in your life. So you will see surprises and you will see major changes in the natural and in the spiritual. But it's not a time for you to look back. It is a new day for you to look ahead. I said, it is a new day for you to look ahead. It is a day of grace, it is a day of faith, it is a day of walking in the counsel of the holy spirit. Hallelujah, hallelujah.

So you have been trained and you know that you have been called. You know that you have been called into this time, into this hour, to see the mighty works of god and to do them, and to do them, and to do them. The spirit that dwells within you gives you witness that you are called for great things. Why is that? Because greater is he, that is in you, than he that is in the world. So how could it be different, that the greater one within you, is talking to you other than big things. He has such a desire to reveal heaven, to reveal gods purposes. So brace yourself, strengthen yourself in the presence of god, for new battles, for new battles. But the good fight, is the fight that you win. And by listening to the voice within you, by listening to the voice of the spirit, you will always win. Haha.

My spirit is not able to instruct you for defeat. He cannot speak with you about defeat. Because he cannot be defeated. Therefore every time, that you listen to his voice, it talks about another horizon, it talks about another dimension. Because that is the dimension that he lives in, you see. So you wonder in your mind, 'How shall I cope with that?'. Well just listen to the spirit, listen to his voice and allow him to be the loudest voice in your life. Make him the loudest voice in your life. Get rid of other voices. It is time for you to adjust a bit, so that you don't hear other voices anymore to the degree that you are listening to them right now. And faith comes by hearing. And if you listen to the wright voice, to the voice of the spirit, it will always produce faith and faith wins the battle, that's already won.

So rejoice and again I say rejoice. Rejoice, rejoice always, rejoice always. And get deeper, get deeper than you have ever been. Within the next few month you will witness change, but this time you will not be unprepared, you will not be unprepared. You already have the witness of your spirit and you will be able to say, 'I saw it coming. I saw it coming. I am ready. I am ready to jump in the flow of the holy ghost. I am ready for the flow. This is what I have been looking forward to.' And you will not be

surprised by the attacks of the enemy, but you will say, 'Ha, its him again. He is trying the same thing again, again.' But you will rejoice and just laugh at him. Hahaha, hahaha. Because victory is yours. Victory is yours! Victory is yours! Victory is yours! Victory is yours! So declare victory over your live right now and rejoice. Rejoice!
