

### **Your time in the desert is over**

And so there are many, in this day and in this hour, that God is calling and that hear God's voice. And you are taking small steps and you don't think that they are significant. And you have your fights, but still you are on the right path. You know something and a little bit where God wants you to go. But you don't see the full picture. Because when Jesus started his ministry, he did it with twelve people. And when the apostles came to Ephesus, they trained twelve man. And out of that came a revival that changed all of Asia Minor. Hallelujah. So therefore your thinking is wrong if you still look at numbers and if you still look around: 'How many people are here and how many people are following the spirit right now?'. Don't look at other people. The only thing you have to do is look at your own walk with the lord. Because maybe you are the one. Because maybe you are the vessel. Maybe you are the next in chain, hahaha, that God is about to use. God never called the masses. He always called a few. And if those few are following, it becomes the masses. And it grows. So be careful to look with the eyes of the spirit and follow the holy spirit every single day. Because the small steps that you are taking are actually giant steps, where you cover your promise land and not only yours.

Haha. Because remember this, every part of the promise land that you conquer, it releases hope for other people. Because the victory that you gain, is victory for others. Because you are part of the body. It is not always only you. If you win we win. Your victory is my victory. Your strength is my strength. If you conquer land, if you possess promise, we all grow, we all get stronger. So don't allow the enemy to lie to you about your struggles. Because you are not your struggles. You are victorious over all your enemies, by the power of the living God on the inside of you. You are not your struggles. You are conquering, you are defeating, you are destroying the works of the enemy and you get stronger in the fight. You get stronger in the fight. You get stronger in the fight. You get stronger in the fight. And the holy spirit will unite you with other man and woman, with other brethren, hahaha, with other brothers, that know what it means to die to themselves and lay there pride down and humble themselves. And they know what it means to walk in the spirit and not in the flesh. And very soon, you will join one another. Very soon there will be supernatural connections with people that have been through the same process. That said yes and that followed those small steps, this little voice. And you will unit to an army. Haha. And there will be a platform for this nation to speak to this nation. And it will be a number of people that have been in the desert, that have been in the desert. Not in the desert of disobedience, but in the desert of the training of the holy spirit.

And the holy spirit tells you tonight the faster you are willing, to conquer your flesh, the faster your time in the desert is over. The faster that you are willing, to deal with yourself, haha, the faster your time in the desert is over. Many of you spend too much time in the desert, because you didn't know

what it was. You couldn't see the purpose. You couldn't see the plan behind it. And some of you actually went back to the lord and complained, not understanding the working of the holy spirit, not understanding the purpose of God. And you turned against God. But the spirit of grace gives you grace to go back into the fight. So your time in the desert can be soon over, if you are single focused. I said your time in the desert, hahaha, can be soon over, if you are single focused.

So order your priorities and get rid of those other voices. Yes, I said stop other voices in your live, stop all the distraction, stop all the distraction for a season. And if you go through this desert, what used to be a distraction will not be a distraction any more. Because your flesh will be conquered, hahaha, and Your spirit will reign. What used to be struggle, will not be struggle any more. Because this is like the cave of Adullam. Haha. Man and Woman being changed. Man and woman in great distress. Man and woman in lack. But those people in the cave of Adullam, became the giant killers of David, became the army of David. And this is where you are. So don't leave the cave. Don't leave the training ground, but go and follow the spirit of the Lord and let the word of God dwell within you richly. Because you are well able to defeat all your enemies, to defeat all you enemies. And when you become more public, there will be nothing within you, that the devil can use to destroy you. He will not be able to get you into immorality. He will not be able to get you into pride and arrogance. And he will not be able to get you with mammon. Hallelujah. Glory be to God.
