### **Deep Desire**

For the deep desire of the spirit within, it shall bring forth and it will take over. It will take over your soul and it will overtake your mind. You will be under God's control by the desire of your heart. And that breaks forth from your spirit. The deep longing of your spirit to manifest as the son and daughter of God. The deep desire, that speaks more of Him and less of me; the deep desire, this longing that you have, that wants to see the glory of God manifested on the earth, it will express itself in a deeper way - in a deeper way.

So, your prayer is going to change. Lots of things are going to change. But the deep desire within, it will get the upper hand. It will get the upper hand. And there will be a flow coming through you – out of you. It will be a stream of love that you did not know before. But there will be this connection of the Spirit of God and your's. And it will flow freely.

Because for within you there is this seed and that seed is Me. It will be expressed – it will come forth. The deep desire will be fulfilled. And you have heard it. You sensed it many times. You know it. The spirit witnesses to you that it's true. It is the anointing that you received that teaches you all things. And by this you know that you have to walk this way and you surely will do. And you will give it room. You will not hold back. You will not hold back. You will not hold back. You will not regret and say: I wished I would have. You will go with it all the way. In Jesus name. Hallelujah.
