

### **Image Of God**

Created as children of love. Created out of love, to be able to walk in divine love. Not just in human ability, but divine ability. Divine ability to do the impossible, to love throughout impossible situations in the Fathers image, out of the will of the Father, so that the love of God would flow through us and flow through every believer. Created by God in the image of God, in the image of love, so God would walk among man. And the word become flesh and walked among us. And now the word becomes flesh again, as we receive the truth and renew our minds, and getting transformed into the perfect will of God, which is love in action. We thank You for it Father, that You have created us to express Yourself, we thank You Father, we honor You for this precious gift and we call ourselves blessed. We are honored, we are honored by Your love, we are grateful today and forever.
