The Army of the Lord

God is building an army. The army is coming forth, because many have been prepared. Preparation is one season, it is very important, and preparation in one way never ends. But then there is another season, and that's going to start on the day of Pentecost this year. When those, that are trained, [...] they are going to come forward. They will appear and they are going to join together as a mighty force. They are going to run and they are going to jump over the impossible, over the limits, over the lies. They are going to destroy! What the enemy has build in years and decades, will be destroyed in seconds. Because the army of the Lord is on the horizon and the army of the Lord is here.
